

A Proven Solution

PowerSchool

PowerSchool® is the leading and fastest growing student information system (SIS) available today, supporting 12 million students in all 50 states and over 65 foreign countries. Last year, more schools and districts selected PowerSchool than any other SIS product on the market. Today, PowerSchool supports a wide range of implementations – including schools as small as 25 students, districts as large as 80,000 students, and statewide deployments.

Impact to Student Achievement

The deep functions of PowerSchool allow today's educators to make real-time decisions about each student while creating a collaborative environment for parents, teachers, and students. Access to real-time information allows student performance to be addressed in a timely manner.

Easy to Learn, Easy to Use

By leveraging the latest web technologies and evolving web design standards, PowerSchool presents users with a clean interface that is easy to learn and easy to use. With over a decade of experience as a completely web-based system, PowerSchool stands alone as the deepest and most flexible SIS available to meet the needs of K-12 schools and districts. Through SIF® Compliance, an open platform, and the ability to share enhancements with other users, PowerSchool allows each customer to easily tailor the best solution for their needs.

Connecting the Dots

Xchange™ Single Sign-On (SSO) Platform

The Xchange™ is EduTone's award-winning, multi-tiered, multi-tenant cloud-based SSO management platform. Xchange enables educational institutions to aggregate, manage, and deliver any web-enabled tool, application, and content service to end users by role – teachers, librarians, IT coordinators, principals, technicians, students, parents – providing them with quick and seamless access from a single point-and-click widget on any device and operating system.

With a growing library of over 200 SSO "Connectors" to the most widely used web-enabled services such as PowerSchool, Xchange is fast becoming the SSO platform of choice for education serving over 3,000 K-20 institutional customers worldwide.

Flexible, Seamless, and Powerful

Xchange™ provides educational end users within an institution with a convenient hub for all of their web-enabled educational files, applications, content, and bookmarks on the device of their choice – netbooks, tablets, smartphones, iPads, desktops – accessible via one single user name and password. Device- and platform-agnostic, Xchange encourages institutions to adopt a "Bring Your Own Device" policy enabling 1:1 computing. Using the cloud ensures that the Xchange is always up-to-date and performing optimally, while its easy-to-use "Gateway" administration portal and "Passport" user-interface guarantees seamless provisioning and access.

About Pearson

As the industry leader in SIS and performance solutions, Pearson offers schools and districts access to deep expertise and an unparalleled selection of technologies that address the challenges of achievement, reporting, growth, and scalability. Our student information systems enable schools and districts to leverage technology to ease reporting burdens, open up lines of communication, and simplify internal processes, such as scheduling and grading.

We believe that providing today's schools and districts with a choice of flexible, interoperable, and customizable technology solutions is critical to establishing the infrastructure needed to power performance across all stakeholder groups, be it schools, districts, administrators, teachers, or students.

About EduTone Corporation

EduTone provides cutting edge, cloud-based, device- and platform-agnostic services specifically designed to meet the needs of today's K-20 institutions:

- Xchange™, its multiple award-winning, fully-integrated, customizable, end-to-end services delivery platform providing educational institutions with secure Single Sign-On, automated role/policy-based provisioning and identity management for all web-enabled applications, content and communities
- Global Grid for Learning (GGfL) Marketplace, its one-stop shop for web-enabled services
- GGfL Library, its content aggregation service featuring 2 million learning resources from over 50 content providers (www.ggflondemand.com)
- Wetheteachers (www.wetheteachers.com), its freely available Web 2.0 community portal for teachers
- EdPay (www.edpay.net), its customizable, integrated and secure online store for all payment collection and activity fund needs for public and private schools.
